

Hoverheel

The Selectis Hoverheel combines an aggressive design with hi-performance fabrics to eliminate pressure and friction to the skin. Designed for comfort and sustainability, the Hoverheel will provide the highest level of relief throughout the healing process.

Item# 82150	Small
Item# 82160	Medium
Item# 82170	Large

FEATURES

- Extended and cushioned design floats the heel over an air cavity for zero pressure and allows air circulation to assist in healing
- Soft velvet- like cloth protects skin from friction and shear
- Foam cushioned sides protect lateral and medial malleoli
- Removable gel insert lowers pressure beneath the ankle and keeps foot cool
- Anti microbial fabric prevents bacterial growth
- Adaptable strap allows Hoverheel to be secured at two alternate positions. Lower position controls dorsiflexion
