# SELECTIS

# Raised Perimeter Mattress Cover

The raised perimeter mattress cover is designed to increase the safety of the user. The raised sides will prevent residents from falling or braising against rough bed rails.

## Features

- Raised edges closes any gaps between the bedrail and the mattress

- The raised mattress cover forms a rail between the resident and the edge of the bed

- Easy setup and removal for cleaning

- Nylon cover is water resistant and vapor permeable

- Gives a railless bedframe full perimeter protection

- 4 Works with all generic manufacturer mattresses

- Wide openings to allow for simple entry and exit
